Submission of Papers

Submission of Draft Papers for Evaluation

Prospective authors are invited to submit their papers by uploading them to the evaluation web site at:**http://world-comp.org**. Submissions must be uploaded by the due date (see IMPORTANT DATES) and must be in either MS doc or pdf formats (about 7 pages including all figures, tables, and references.) All reasonable typesetting formats are acceptable (later, the authors of accepted papers will be asked to follow a particular typesetting format to prepare their final papers for publication; these formatting instructions appear at: http://world-comp.org and they conform to the two-column IEEE style format). Papers must not have been previously published or currently submitted for publication elsewhere. The first page of the paper should include: title of the paper, name, affiliation, postal address, and email address for each author as well as a maximum of 5 topical keywords that would best represent the content of the paper. The first page should also identify the name of the Contact/Corresponding author together with his/her professional email address. A 100 to 150-word abstract should appear on the first page. Authors are to conform to the common **CODE OF ETHICS FOR AUTHORS** (The document for the Code of Ethics is available on the submission web site.)

Each paper will be peer-reviewed by two experts in the field for originality, significance, clarity, impact, and soundness. In cases of contradictory recommendations, a member of the conference program committee would be charged to make the final decision (accept/reject); often, this would involve seeking help from additional referees. Papers whose authors include a member of the conference program committee will be evaluated using the double-blinded review process. (Essay/philosophical papers will not be refereed but may be considered for discussion/panels).
